Edit Layout Screen

- Dendrogram layout building downwards
- Each **Page** populates with **Buttons** from below
- Unable to merge diverging paths
 - In a Quiz there will hence be exponentially more **Pages** for each diverging/question
- Next: Edit **Page** 

Edit Page Screen 1

The screenshot displays the YODAWAY interface. On the left is a sidebar with navigation options: Home, Layouts, Scheduler, Statistics, Gallery, Business card scanner, and Profile. The main area shows a flowchart with several steps, including a question 'Vill du lära dig om tandtråd?' and a 'Tandtråds info' box. A settings panel on the right is open for a page named 'Flossa-Lite-Smartpoint'. The panel has tabs for 'Main' and 'Changes'. Under 'Main', there are options for 'Type' (Default layout, No button layout, Website), 'Button size', 'Button per row', 'Sensitive Buttons', 'Alignment', 'Background color', 'Background image', 'Text on screen', 'Text color', 'Textoutline color', and 'Speech'.

- **Layout** styles with option for embedded **Website**
 - Can embed videos and/or dynamic content
 - Very limited JS usability
- Different **Button** styles
 - Must still be edited using custom **media**
- Custom backgrounds and simple text
- Next: Edit **Page** continue

Edit Page Screen 2

The screenshot displays the YODAWAY interface. On the left is a sidebar with navigation options: Home, Layouts, Scheduler, Statistics, Gallery, Business card scanner, and Profile. The main area shows a flowchart with several nodes and connections. A configuration panel on the right is open, showing settings for a robot's speech and movement. The panel includes a 'Save' button and a 'Cancel' button. The settings are organized into sections: 'Speech when movements are registered' (with a text input 'Hej!', a 'ssml' dropdown, a 'Voice speed' slider, and a 'Minimum time between speech' input), 'Robot only' (with a 'Smile' dropdown, a 'Dance' toggle, and 'Greetings' options), and 'Speech when head is touch' (with a text input 'Hej på dig.' and a 'Head' dropdown). The 'Head' dropdown is currently set to 'Head'.

* Colors for clarity

- TTS using ssml and Google.
 - Dropdown for different languages, limited availability from Google
 - Set TTS voice speed using slider
- Dropdown with Robot face-emotion on **Page** start.
- Simple Robot movements on **Page** start.
- Custom Robot responses for each touch sensor
 - No function during testing / disabled functionality

• Next: Edit **Button**

Edit Button Screen

The screenshot displays the Yodaway dashboard interface. On the left is a sidebar with navigation links: Home, Layouts, Scheduler, Statistics, Gallery, Business card scanner, and Profile. The main area shows a flowchart with several nodes, including a button labeled 'Hej'. A settings panel is open on the right, titled 'Edit Button Screen'. It has two tabs: 'Main' and 'Device actions'. The 'Main' tab is active and contains the following sections:

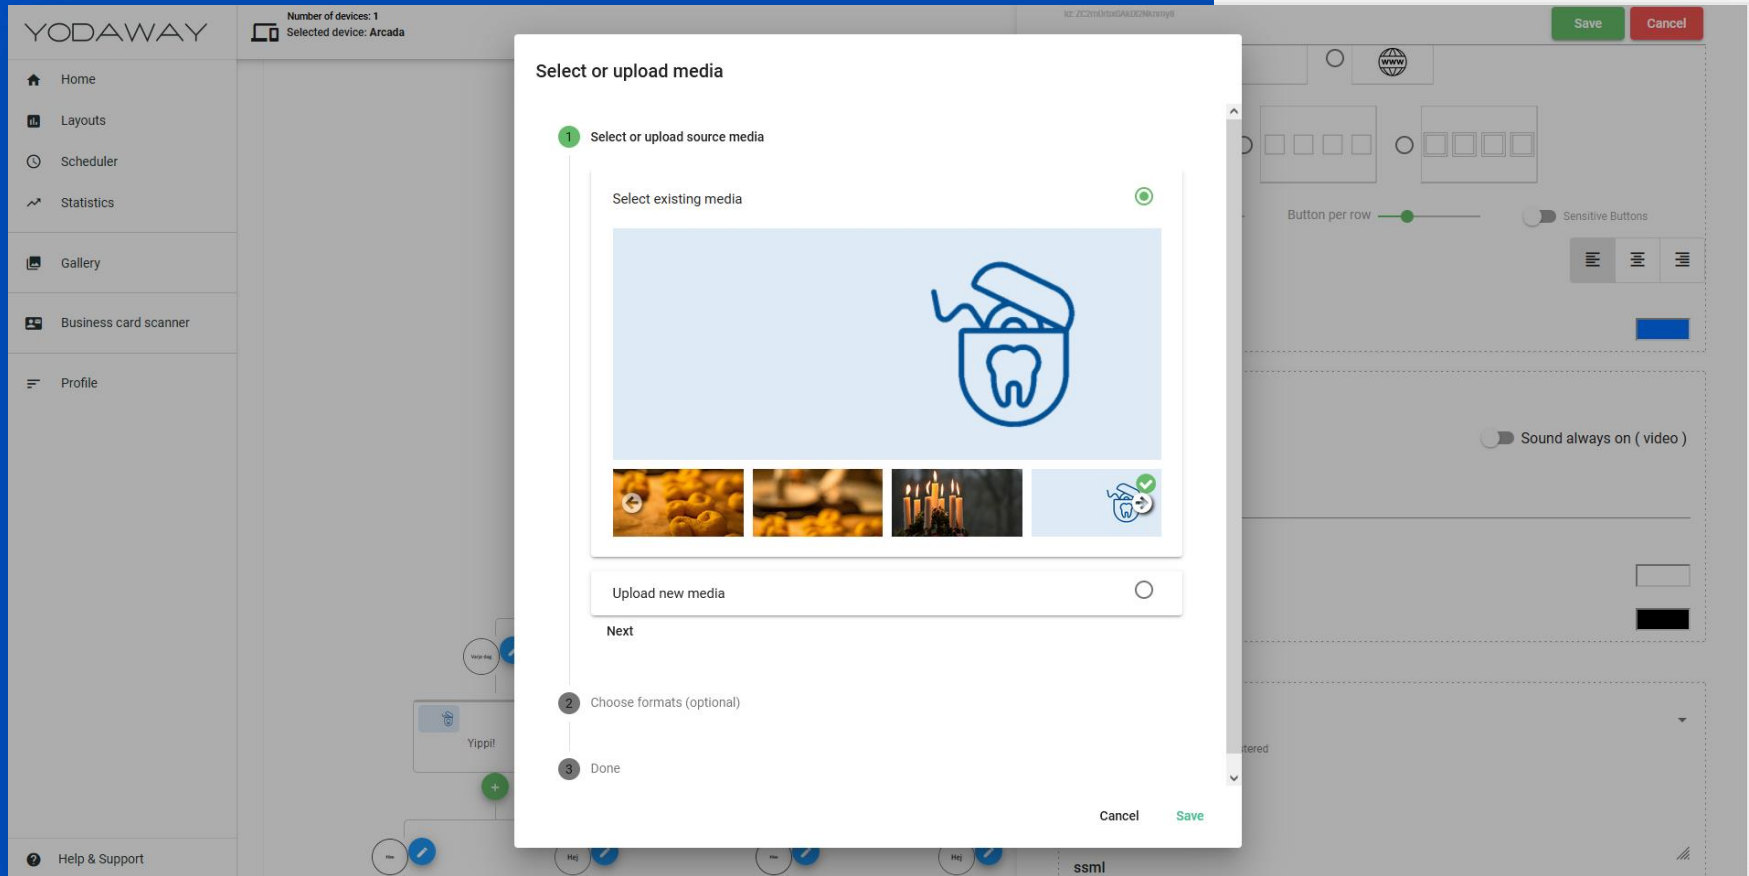

- Button settings:** Includes a 'Selected image' section with a circular button labeled 'Hej' and a red trash icon.
- Label settings:** Includes a 'Label under image' text field, a 'Label on charts * start' text field, a 'Text color' color picker, and a 'Textoutline color' color picker.
- Report settings:** Includes a 'Charts color' color picker.
- Notifications options:** Includes an 'Email' text field, a 'Recipient' text field, and an 'Enable' toggle switch.

At the top of the settings panel are 'Save' and 'Cancel' buttons. The flowchart in the background shows a sequence of steps: a button, a decision node 'Hej', a text node 'Vill du lära dig om tandtråd?', a decision node 'Ja', a text node 'Tandtråds info', and two final buttons 'Yippi!' and 'Voi nej!'.

- Button settings
 - Upload custom image for your **Button**
- Label settings for this* developer interface
- Additional settings for marketing research and results
 - Use case not explored
- Next: **Upload media**

Upload media Screen

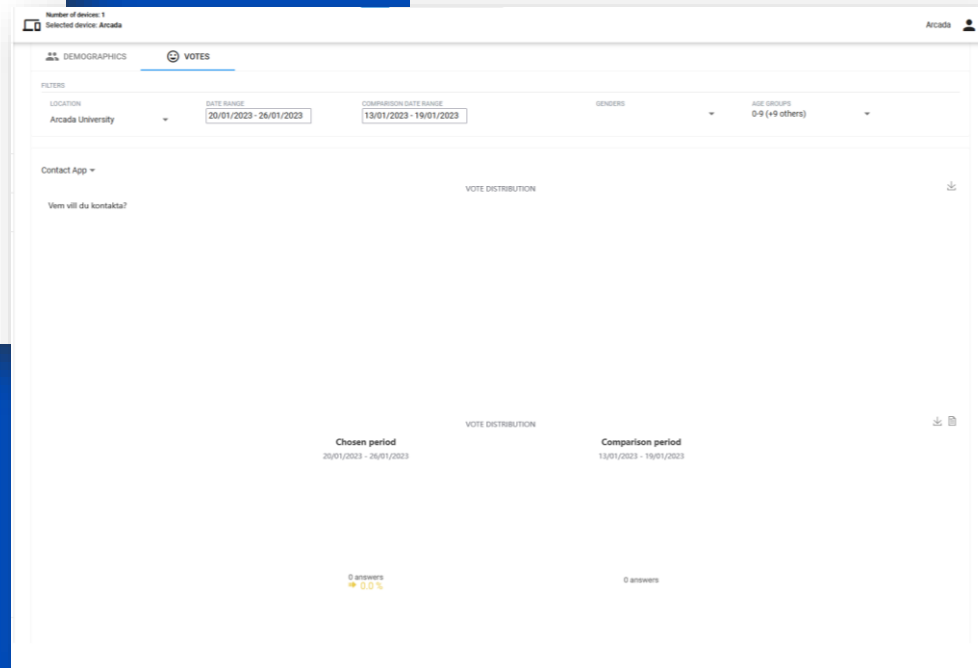

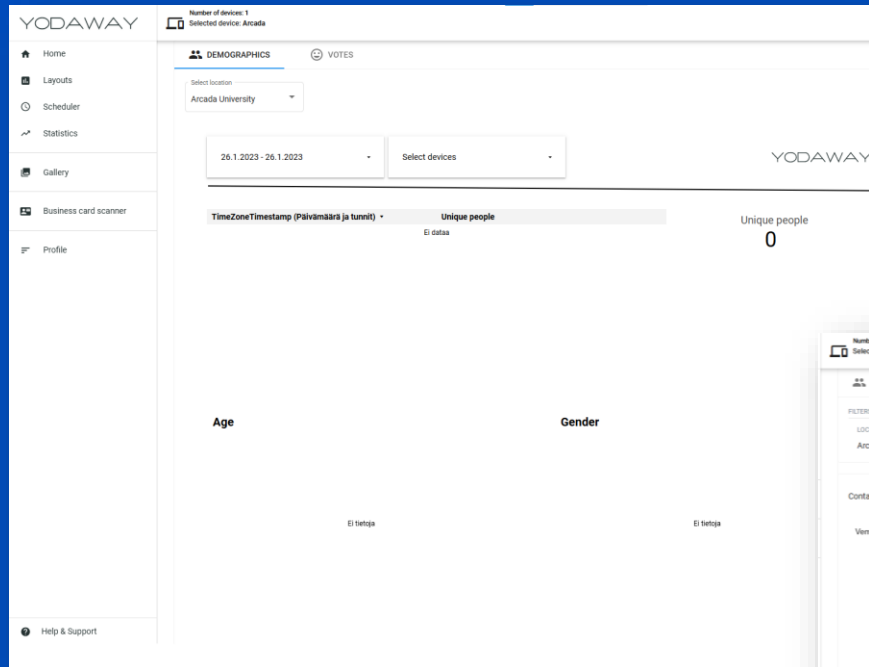

- Upload new **media** or select from previously uploaded **media**
 - No known method of deleting uploaded **media**
- Uploaded **media** automatically gets re-scaled into 4 additional **media** fit for the Robot app
- Next: **Scheduler** 

Scheduler Screen

The screenshot shows the YODAWAY Scheduler interface. On the left is a sidebar with navigation links: Home, Layouts, Scheduler (active), Statistics, Gallery, Business card scanner, and Profile. The main header shows 'Number of devices: 1' and 'Selected device: Arcada'. The top right has 'Arcada' and a user icon. Below the header, there are dropdowns for 'LOCATION' (Arcada University) and 'DEVICES' (Please select), along with an 'Active' toggle switch. A 'Save' button is visible. The main content area has a 'Schedule name *' field and a 'Date range' selector set to '27/01/2023 - 27/01/2023' with an 'Always run' checkbox. Below this is a 'TIME SCHEDULER' section with a large dashed box for scheduling. At the bottom, there are two sections: 'LAYOUTS' and 'ACTIONS'. The 'LAYOUTS' section contains five preview cards: 'Contact App', 'Workshop Survey', 'Lucia' (with a cat image and text 'Har du ätit en lussekatt?'), 'lucia', and 'Communications'. The 'ACTIONS' section contains two buttons: 'Turn on screen' and 'Turn off screen'. A 'Help & Support' link is at the bottom left.

ProfileScreen

The screenshot displays the YODAWAY web application interface. On the left is a sidebar menu with the following items: Home, Layouts, Scheduler, Statistics, Gallery, Business card scanner, Profile (highlighted), Profile (with a user icon), Assign new device, and Text To Speech. The main content area at the top shows 'Number of devices: 1' and 'Selected device: Arcada'. Below this is a navigation bar with tabs: MAIN (active), LICENSES, DEVICES, MEDIA, and INPUT. The profile form includes input fields for 'Name *' and 'Email', a 'Save' button, and a 'Change password' link. On the right side of the form, there are labels for 'CREATED AT:', 'LAST LOGIN:', and 'LAST IP:'. At the bottom of the form, there is a 'Login overview' link.

- User profile settings with ability to add **devices** (Robots) and see licenses.
